

Piru Friendsgiving's November 2024

Another fun campout. 13 rigs this year. Most arrived Thursday. Some ventured out for Mexican food Thursday eve in Filmore.

Friday was on you own day, hang out and visit. Gary and Donna Sawyer came out for a visit on their motor. A little rain on their departure but sky's cleared and they got off safe. A Great Pyrenees pup joined us. Looked like he had been on the road for a while. Brain and Masson Espin made him as comfortable as they could. He spent the night their rig. Saturday morning off to the local vet to see if he was chipped (no chip) Next stop was the local shelter . Last report the dog was placed with a ranch owner. Great match Great Pyrenees can be 100 lbs plus when all grow'd up. Ranch is a great match

Friday night hors d'oeuvres

Saturday morning Bloody Mary's mimosas by Moe and breakfast burritos prepared by Tom Glynn, Ron Hilmer and the crew. Lots of sweets to.

Later in the day had a visit from Dan Miller. He was a hungry fella when he arrived so Vanda made him up a sandwich to get him back on track.

Marty Olgin, Chuck Norman, and Paula Christian who were camping at nearby Kenny Grove Park and came by to check in. Light story swapping and beverages, fun for all. Was a good visit.

Also had a visit from the granddaughter of the builder of the facility now known as Piru Petroleum Club at Britt Park. She is one of the last surviving Britts. Originally a family recreation building and barbeque, it is located on a back portion of the old family ranch. Her grandfather was a local championship barbecuer, and in the late 1950's built the massive grills that are still in use today.

Then came dinner trashcan turkey and one on the smoker All pitched in with the traditional fix'ns and special deserts like Aunt Pinkies Carrot Cake (Judy Nadeau)

We were joined for dinner by the Trauger's Corson's and Sablick's and their guest form across the pond

Happy Friendsgiving All

Ron Russell On behalf of Tom Glynn

Luv u mucho

Deann
